

PART 1 • 00:00 - 01:45

1. High-Level System Architecture & Technology Stack

Welcome to the KMIT Kahoot Platform technical walkthrough. Our platform is built on an In-Memory State Machine with Asynchronous Batched Persistence, designed to seamlessly host live quizzes for over 1,000 simultaneous students with microsecond latency.

☑️ 🔊 Auto Voiceover (AI Speech)

1. High-Level Architecture
00:00 - 01:45

2. Ingestion & Pre-Processing
01:45 - 03:30

3. 9-Stage AI Generation Engine
03:30 - 05:30

5. WebSocket Event Dictionary
07:15 - 09:45

6. In-Memory Hot Path (~3.1µs)
09:45 - 11:30

7. 4-Layer Resilient Grading
11:30 - 13:15
